Registration is online at www.SWPEC.org.

All nurses are invited to register for any and all class days approved by manager. Intended audience is listed for each day to guide those who cannot attend full series of 4 days.

Attendees should complete PeriFACTS Essentials of Inpatient Maternal Care online modules before class dates, if possible. Modules available from the SWPEC representative at your facility, or by contacting kimberlypatamia@chifranciscan.org

Please make sure to look at the map and instructions provided on the website. Using GPS for this address sometimes causes incorrect directions!

COURSE OBJECTIVES

This course is designed to provide high quality, cost effective, didactic and simulation education to nurses new to the field of Maternal-Child Nursing. Included is the online course in Maternal Inpatient Care from periFACTS, which should be completed before the dates of class when possible.

The course is intended to augment the hospital clinical orientation to the obstetrical and neonatal units. All RNs and LPNs interested in these areas are invited to attend.

Basic course content includes physiology, assessment, diagnostic techniques, care planning, medical and nursing therapeutics and evaluation of nursing care. Simulation and Hands-on learning is incorporated frequently throughout the class material. Attendance for the entire day is expected.

Precepted perinatal clinical experience on non-class days is encouraged for the successful application of class content.

FACULTY

The classes will be taught by clinical experts from throughout Southwest Washington. CE credits will not be provided, however attendees will be given a certificate of attendance.

Directions to the facility are on our website: www.SWPEC.org
